

## ANNOUNCING THE RTS “PEACE OF MIND” RE-BANDING PROGRAM!

Over the next three years the US FCC Broadcast Incentive Auction could reduce the number of available UHF bands. As this auction may affect RTS products, our goal for the “Peace of Mind” program is to provide a safe haven for our customers.

Our “Peace of Mind” program is an extended warranty which includes a one-time no charge re-banding of the UHF products listed below for customers that are impacted by the loss of certain FCC bands in their region. This offer begins with orders placed after March 21, 2016 and will be good for five years from the date of delivery to the end customer.

The purchase of our “Peace of Mind” program at the time of the product purchase will:

- Extend your warranty from 3 years to 5 years of coverage
- Provide one free re-banding of your covered Base Station and Belt Packs if you are impacted by the FCC mandated loss of bands in your region\*

One PO may be sent to RTS with the product and warranty being invoiced separately.

The article number for the extended warranty offer is below:

SAP NUMBER	PRODUCT
F.01U.200.934	OOW-CCS-USD

\* The serial numbers of the purchased products must be sent to RTS within 60 days of the end customers receipt of the products for the warranty to be activated.

RTS believes that, at a minimum, the following bands will still be available after the FCC auction: F1, F2, F3, H1, H2, H3, A1, A2, A3, B2, B3, and C3.
